INSTRUCTIONS: For 2 - 198 players. Lay this page on a floor or table. Each player in turn tosses two pennies on the balloons. If the pennies land on two balloons with the same character the player scores two points. First player to ten points wins!

Titiana's B-Day Balloon Game

(Balloons
full
of
farts)

TTIANA is the beloved Flatulenz Fairy tremorroid of Bonertania. She grew up in an abusive household and never had any birthday parties. Now that she's in charge she throws at least one birthday party per month.

B.M. Foulfinger is the founder and dean of Foulfinger University where he lives with his super best friend Dr. Slugg; Poo-Go and his adopted ward Tiny Thirdly; and Vogelkot the Stinkingo. All of these characters appear in the Sifillis Stories series of weird fantasy novels.

Blip Polyp: The Home Game

Can you
help Blip
Polyp get to
his outhouse
without going
through more
than 9 diapers?

*Diaper
Meanie*

If you fail, it's the next player's turn. When it's your turn again, start from Starting Line and try for Field which you failed to reach on your last attempt. The winner is the first player to flick penny into each of the 10 Fields.

Three wild queezimps are trying to capture Jodo! Two players can play this game, one taking three buttons (The "queezimps") and placing them on the spaces marked *. The other player ("Jodo") has one button, placing it on spot ナ. Jodo goes first and may roll either backwards or forwards, one space at a time, along the lanes only. The queezimps can only move forward, one space and one button at a time and must try to keep Jodo from reaching any of the * spaces where she can escape.

The Origin of Dr. Slugg

Did you know Sifilllis Celebrity Dr. Lubricious Slugg was once a regular garden-variety garden slug? Help him reach the thaumaturgic puddle of gunge that made him grow super-bigger and super-smarter... well, smarter, anyway... for a slug...

This game needs two (2) players.

The winner will be the person who leads the future Dr. Slugg to the gunge puddle by taking the least number of stops along the lines.

Count each dot you pass as one stop.
